

Formycine[®] Liquido

Overview

FORMYCINE Liquido is a powerful germicidal, virucidal and fungicidal premix.

- Has a high ability to inhibit gram-positive and gram-negative pathogen bacteria, molds, yeasts and viruses.
- Coagulates the cytosolic protein of *Clostridium* spp., *Klebsiella* spp. and coliforms by means of natural aldehydes.
- It has a continuous effect, which diminishes the multiplication of the pathogenic flora.
