

## Overview

TOXIBAN® Max is a multi-ingredient product to protect the well being of poultry by maintaining the overall quality of the feed.

- Reduces feed deterioration caused by molds and their metabolites.
- It is an excellent risk management tool against the broad spectrum of molds known to produce mycotoxins.

## Product Description

TOXIBAN Max is a highly stable premix of aluminosilicates, yeast culture, gelling agent and marigold extract which help control molds in animal feed and raw material.
