SPECIAL PRODUCTS

# AQUA-CLEAN®

**Most powerful disinfectant for a hygienic clean result**

## What is Aqua-clean®?

Aqua-clean® is the most powerful disinfectant which both cleans and disinfects drinking water systems based on hydrogen peroxide and a silver complex as stabilizer.

### Hydrogen peroxide

- Effervescent cleaner
- Penetrates and breaks up biofilm
- Antibacterial / disinfects water

### Stabilizer / silver complex

- Prolongs reaction of H<sub>2</sub>O<sub>2</sub> with biofilm
- Non-corrosive agent

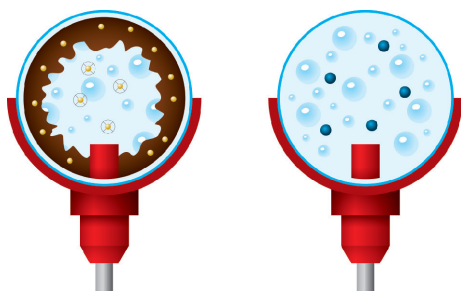

## What are the benefits?

- Removal and prevention of pollution and biofilm in drinking systems
- Hygienic water which means less bacterial contamination
- Prevents and stops leaking of drinker nipples
- No blocked drinker nipples or drinking lines
- Removes breeding ground for bacteria
- Optimal effect of medication, vaccines and additives
- Safe for equipment and animals

## When to use?

- Severe pollution in drinking system
- Structural prevention of pollution in drinking system
- Before and after addition of vaccines, medication and additives

Treated with Chlorine / Acid    Treated with Aqua-clean®

1. Pollution
2. Chlorine / Acid removes only free bacteria
3. Bacteria still present after cleaning with Chlorine / Acid
4. Active oxygen bubbles and a clean system.
